

Expression of Interest

Project Manager – Snowy Rail Bridge Restoration

Background

The Save the Snowy Rail Bridge Committee Inc have received funding to proceed with restoration works on the Snowy Rail Bridge at Orbost. The 770 metre long structure requires repairs to the sub structure and replacement of the decking to provide a safe walking/cycling experience.

The Save the Snowy Rail Bridge Committee are seeking to engage a part time Project Manager to manage the restoration project over a period of 18-24 months

Duties include

- Development of a scope of works for the contract to be advertised for the restoration works and development of tender documents
- Develop a project plan in consultation with the preferred contractor
- Manage the relationship between the contractor and stakeholders
- Supervise contract works
- Track budget progress and report to stakeholders

Working hours required during the project will vary. Initial work will relate to development of the scope of works and contract documents. Once the subcontractor is engaged the time spent will include onsite supervision, reporting on contract progress, budget control etc

The applicant should indicate an all inclusive hourly rate for the work which is an expected time commitment over 18-24 months of 1200- 1500 hours.
